This material may not be distributed without permission of the author.

The purpose of this document is to show you what you can expect should you choose to invest in this issue of the 0-hr Armada Codex. This issue presents the Chimaerus integrated transport and the three ships (Leaena, Krios, and Drakon) of which it is composed.

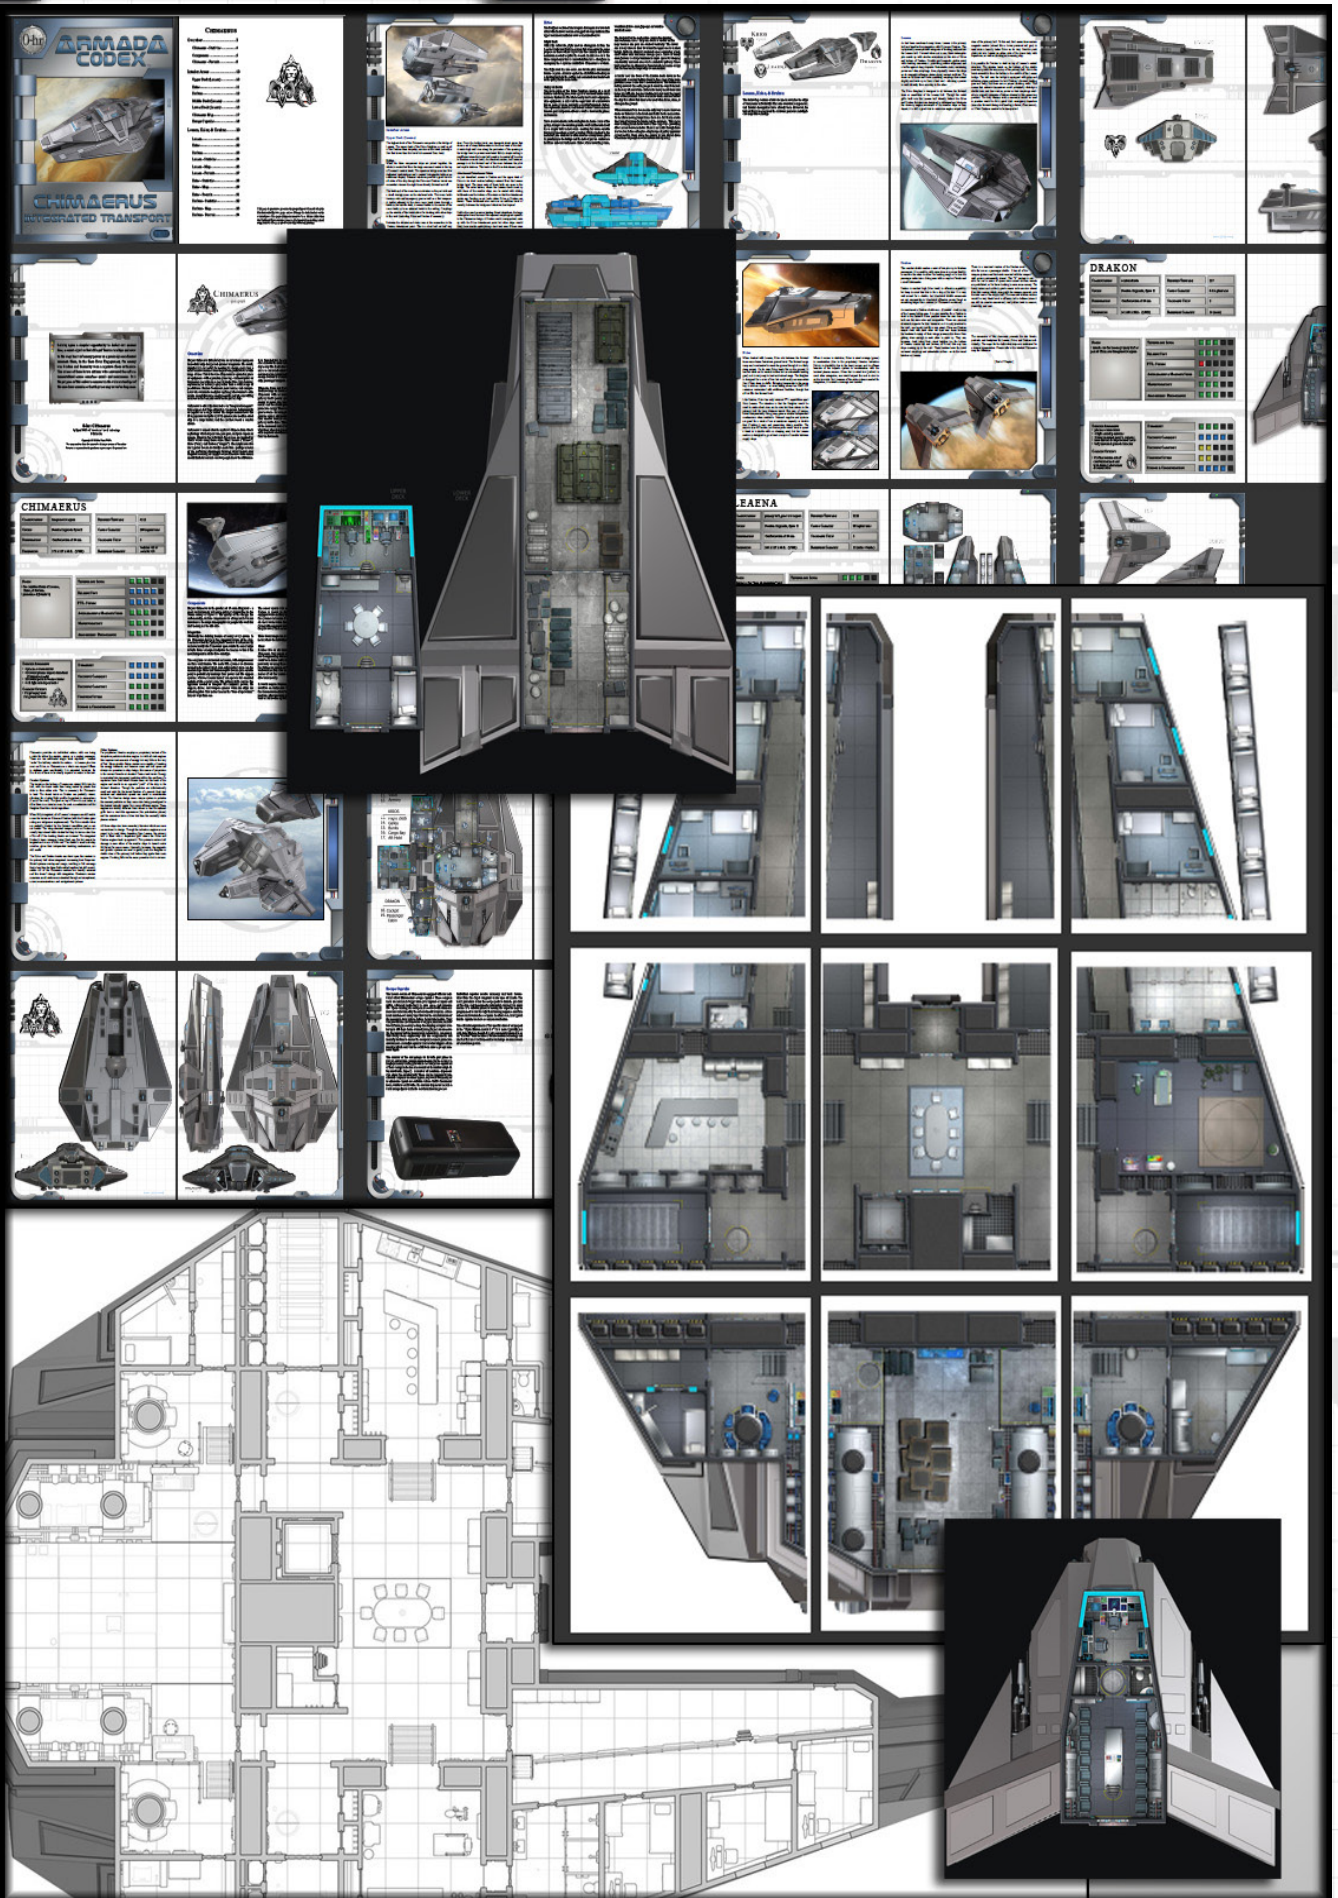

The product consists of a main book, map pages book, and uncut map images. Specifically, this is what is shown in this brief demo document:

- **Page 2 (upper left): Main Book.** An overview of the ships, components, and statistics is provided. The stats are generic descriptions and not from any particular game system. Each area of each vessel is enumerated and described. Rendered images are included throughout.
- **Page 2 (right): Map Book.** The map book provides tactical maps (1 inch = 5 ft.) for the interior areas of the ships. The pages are designed to be printed out and laid edge to edge. Layers are used so that certain map elements (like the grid, cargo, or the black and white version of the map) may be toggled on and off as desired.
- **Page 2: Uncut Maps.** Complete deckplans are presented in a single giant image, layered so that the grid, black and white version, and so on can be toggled on or off. It includes a light background good for printing, and a dark background good for display on a computer or with a projector. Single layer jpeg images are also included for easy VTT use.
- **Page 3:** This is a sample page from the map book. The layers are live in this demo document.
- **Page 5:** Displayed here is a sample of some rendered art from the main book.
- **Page 6:** This is a copy of the product overview from the sales web page.

Thank you for taking the time to explore this product line. I hope that these ships can find a place in your fleet!

## 0-hr Armada Codex

# Chimaerus

Chimaerus [ kī-mēr'is ] is an adventurer-oriented medium sized vessel that is made up of three independent ships:

- **Leaena (the Lion)** - the main body of the ship, holding the living quarters, medical, and FTL systems. This is the largest of the three sections and also serves as a command & control center for the small fleet.
- **Krios (the Ram)** - a boxy freighter that is little more than a long hold with a small cabin and flight deck on top. When docked it sits between the forward mandibles of the main hull and serves as the primary cargo hold for Chimaerus.
- **Drakon (the Dragon)** - an armored drop ship or sturdy passenger shuttle. It docks facing rearward at the tail end of the Leaena hull with it's turret serving as a tail gunner emplacement.

The purpose of Chimaerus is to provide a mobile base of operations for a group of heroes or mercenaries, but one that can split up when needed to accomplish more. There are half a dozen cabins on board, plus ten capsule-bunks for additional crew, marines, or passengers; and a couple more beds on the freighter and in the brig if needed.

The ship is well armed and armored; more than capable of handling itself in a fight. The Drakon attack shuttle can serve as an armored dropship, passenger transport, or recon vessel. Even the Krios cargo ship could serve as a missile boat while Leaena coordinates the attacks and brings its own considerable firepower to bear.

The Chimaerus package contains several highly detailed, layered PDF files:

- **Main Book**
  - o 35 page PDF file detailing the interior areas of Chimaerus (Leaena, Krios, & Drakon).
  - o Contains 3D rendered scenes as well as orthographic views.
  - o Includes system independent statistics designed for easy adaptation to your game of choice.
  - o Background, art, and text are on different layers for custom display and printing.
- **Map Pages**
  - o 27 page PDF file containing complete interior maps and instructions for assembly.
  - o Miniature-scale maps for tactical combat with an optional 1 inch = 5 ft grid.
  - o Divided into pages for easy printing in full color or printer-friendly black and white.
  - o Selectable layers include: grid, black & white version, and optional cargo.
- **Uncut Map Images**
  - o Four PDF files containing large, uncut images of the deckplans for the ships.
  - o Includes 29x36 and 24x36 inch images of the Chimaerus combined ship plus smaller images (12x12 and 17x20) for Krios and Drakon.
  - o Select either a light or dark background (for printing or projection/display).
  - o Includes layers for grid, black & white version, optional cargo, and background choice.
  - o Flat jpeg images, grid-aligned, on a dark background are also provided for use on screen.

Sample documents and art, as well as poster maps and matching miniatures, are available at **0-hr.com**.

Thank you for looking over Chimaerus. I hope that it can help bring your campaign to life!
