Overview

The purpose of this document is to show you what you can expect should you choose to invest in *Future Armada: Jo Lynn*. The images on the following pages are low-resolution "print-preview" screen captures meant to provide a general idea of what is inside each book.

Specifically, this is what you're looking at:

- **Page 3:** Main Book. Brief descriptions are given for each area of the vessel, and a composite map is provided so it is easy to put the pieces together. Statistics and maps are also provided for the original gunboat configuration. The Open Game License is utilized to present stat blocks familiar to players of the futuristic version of the world's most popular role playing game. Note that these are the same mechanics as have always been found in *Future Armada*. Only the license, logo, and legal details have changed.
- **Page 4:** Color Maps. The map book provides tactical maps (1 inch = 5 ft.) for the interior areas of the ship. The screen shot shows a sampling of the pages for the gunboat configuration, laid out like they would be when assembled.
- **Page 5:** Printer Friendly Maps. A black-and-white version of the color map book is provided for those people who don't have access to a color printer at work.
- **Page 6:** Sample Map. This is a single page from the color map book, ready to be printed out and used with miniatures. The maps are designed to be laid end-to-end as needed.

- **Page 7:** Bonus Art. Two of the rendered 3D exterior views are shown. The actual pictures are 800x600 jpeg images. Full size composite images of the maps are also included.

Thank you for taking the time to explore this product. I hope that the *Jo Lynn* transport (or gunboat) can become a memorable part of your campaign!

JO LYNN

Transport

Jo Lynn is an old Clydesdale-class gunboat that has been refitted for civilian service. During the border wars of the last decade these sturdy vessels were a common sight above the battlefield, quickly moving troops, supplies, and firepower to where it was most needed. Though they perform well enough in space, this dependable workhorse was designed for atmospheric agility. The heavy thrusters allow for powerful acceleration while the rotating engine pods greatly increase maneuverability and allow for enhanced VTOL operation.

As a transport, the vessel is at the low end of progress level 6 - a bare-bones but reliable ship. She is 135ft long and operates with a standard crew of four (though there are quarters for up to 6). She may not be much to look at, but Jo Lynn has it where it counts.

Also included are the statistics, maps, and exterior renderings for the Jo Lynn while she was still a ship of war. This gunboat configuration is a solid progress level 7 and carries a standard complement of five (plus up to 35 soldiers in the auxiliary bay). While the Jo Lynn is only lightly armed, she carried a battery of missile launchers and a pair of turreted lasers during the war. She also bore some impressive armor and a whole suite of military-grade sensors and surveillance equipment. Whichever version you choose, this ship will get the job done.

The .zip file contains the following:
