## Overview

As with all of the demos, the purpose of this document is to show you what you can expect should you choose to invest in this product. The images on the following two pages are low-resolution "print preview" screen captures meant to provide a general idea of what is inside the book.

Specifically, this is what you're looking at:

- **Page 3:** Main Book. This provides a brief description of the location and possible occupants, followed by the map broken into printable pages. The maps are at 1 inch = 5 feet scale with a grid built in. A composite map is provided so it is easy to put the pieces together, and a larger version of the exterior art is included (to serve as a player handout). Alternate map pages, hiding the concealed doors and secret passages, are provided.
- **Page 4:** Printer Friendly Maps. Black-and-white versions of the map pages are also included.
- **Page 5:** Sample Map. This is a single page from the main book, ready to be printed out and used with miniatures. The maps are designed to be laid end-to-end.
- **Page 6:** Summary. This is a copy of the online sales page (which you probably read before coming here).

The product also includes two composite, poster-sized maps (24x36 inches at 150 dpi) for your use. One has text and secret areas while the other does not (good for projectors and online game sessions).

Thank you for taking the time to explore this product. I hope that it, and other *Ki Ryn Studios* offerings can be of service in your game.

NAME: Killo's Tavern  
TYPE: Tavern  
LEVEL: 1

**DESCRIPTION:**  
A rustic tavern with a wooden floor and stone walls. It features a large hearth, several tables, and a bar. The atmosphere is warm and inviting.

**ITEMS:**  
A wooden table, a stone hearth, a wooden bar, several chairs, and a large rug.

**NOTES:**  
The tavern is a popular meeting place for the local community. It is often used for gatherings and celebrations.

## **Lilly's Tavern**

This sturdy stone tavern owned and operated by Lillian Andollina has had several names, and owners, over the years but has endured for decades near the crowded city wharf. Drawing a wide range of clientele including locals, sailors, and the occasional mercenaries; the common room is usually crowded in the evening and nearly empty during the day. Travelling minstrels and raucous card games are not uncommon. Fights are also fairly common but are usually fought with fists rather than weapons. The Tavern is known for its locally brewed honey mead and imported casks of wine. The kitchen also provides decent, if uninspired, food. For those who need a place to sleep the common room is available after hours. Private dining rooms are for rent, as is a small guest house behind the tavern.

This issue presents a detailed map and interior descriptions for an urban tavern and the buildings nearby (including a guest house, barn, and curio shop). To facilitate use with miniatures, the map has a 1 inch grid built into the artwork. Beyond this, Zero Hour products are system independent. A description of the setting and those commonly found within is provided - ready for you to use, expand, or ignore at your leisure.

This product includes the following:

- An overview of the location and its occupants.
- Full color, miniature-scale map broken into 11 pages for easy printing.
- Alternate pages showing secret doors and areas unknown to the players.
- Black and white versions of the map pages.
- A 24x36 inch poster image at 1 inch = 5 feet scale.
- A version of the poster map with text and spoilers removed.

Become a regular that Lilly's and you'll always have a place to meet new friends, begin great adventures, and return with tales to tell. When its time to play, *Zero Hour* cartography is ready!
