Overview

The purpose of this document is to show you what you can expect should you choose to invest in this product. The images on the following two pages are low-resolution “print preview” screen captures meant to provide a general idea of what is inside the book.

Specifically, this is what you’re looking at:

- **Page 3:** Main Book. This provides a brief description of the location and possible occupants, followed by the map broken into printable pages. The maps are at 1 inch = 5 feet scale with a grid built in. A composite map is provided so it is easy to put the pieces together, and a larger version of the exterior art is included (to serve as a player handout).
- **Page 4:** Printer Friendly Maps. Black-and-white versions of the map pages are also provided.
- **Page 5:** Sample Map. This is a single page from the main book, ready to be printed out and used with miniatures. The maps are designed to be laid end-to-end.
- **Page 6:** Summary. This is a copy of the online sales page (which you probably read before coming here).

The product also includes a poster-sized .jpeg image (24x36 inches at 150 dpi) for your use. This image is similar to the composite map from the main book, though with smaller labels.

Thank you for taking the time to explore this product. I hope that it, and other *Ki Ryn Studios* offerings can be of service in your game.

0 HR: Fantasy Cartography

Temple of the Moon

A day's journey into the southern badlands lies a domed temple. Fit atop a small, volcano-like prominence amid the fetid mists, this stone structure is home to a dark cult who worships the moon and makes human sacrifices to summon denizens from the nether planes. Inhabited by fanatical acolytes and hired mercenaries, the temple is a place of dreary routine punctuated by bloody ritual.

This issue presents a detailed, miniature-scale map, of a medium-sized temple. While the descriptive text illustrates a dark cult in the barren wastes, the map can just as easily represent a neutral or even benevolent sect if that fits your needs. The map has a 1 inch grid built seamlessly into the artwork (rather than just overlaid). Descriptions are given for the temple interior and inhabitants - ready for customization to your story and system of choice.

This product includes the following:

- An overview of the location and its occupants.
- Full color, miniature-scale map broken into 14 pages for easy printing.
- Black and white versions of the map pages.
- A 24x36 inch poster image at 1 inch = 5 feet scale (sample image below).

The Temple of the Moon is ready to host whatever adventure you can imagine, serve as a refuge for adventurers seeking aid, or even become the home of a priestly character looking for a base of operations. When its time to play, *Zero Hour* cartography is ready!
